To all Slide distributors and customers,

Monday, October 29, 2007

It has come to our attention that the European Union has set forth a new directive known as the Restriction of Hazardous Substance (RoHS) 2002/95/EC. This directive covers the following materials: lead, mercury, cadmium, hexavalent chromium, poly-brominated biphenyls and poly-brominated diphenyl ethers.

Please accept this letter as certification that all of the products produced by Slide Products, Inc are compliant with current RoHS guidelines. Please do not hesitate to contact me if you or your customers have further questions.

Regards,

**Jim Armstrong**
